

DIGIEVER Hard Disk Drive Compatibility List

The list is applied for DIGIEVER NVR firmware 76 version or later

Note1: The star

ndard NVR of DIGIEVER is shipped without hard disk drive, and DIGIEVER does not make any warranty of the later-installed hard disk, or warranty of compatibility of all hard isks

war Green & Seagate Green have passed DIGIEVER lab's initial verification of compatibility. However, because many users have reported unstable experience with these hard disk drives, we do not recommend using these had disk drives with DIGIEVER

Update: Jan. 2024

Note3: DIGIEVER will not be liable for the damage caused by this and loss of data in DIGIEVER Products.

ST5000NM0084

Enterprise

SATA III (6Gb/s

5TB

•

•

•

•

Note4: It is strongly recommended to use SATA III (6Gb/s) and 7200RPM HDD for recording

Note5:
The HDD models listed in HDD compatibility have passed DIGIEVER research and development department's testing and verification. Users can also use HDD which is not listed in HDD compatibility. However, it is strongly recommended to use SATA III (6Gb/s) and 7200RPM HDD provided by top-tier HDD manufactures for NVR recording purpose in order to ensure it has qualified quality with strict verification in both design and production process.

Note6:
To use HDD more than 6TB on DIGIARRAY, please upgrade DIGIARRAY to version 0.963-727 via NVR (2.1.x.62 or above version.)

*As the suggestion of hard disk drive providers, the hard disk drive is recognized as compatible with DIGIEVER products if the same family drive has passed the compatibility test.
